## PRINCIPAL MESSAGE

*Renuka Devi*

“The best way to predict your future is to create it”. — Abraham Lincoln

It gives me immense pleasure and a feeling of accomplishment to address as the principal of this progressive institution since its inception in 2014. The school has worked hard to uphold strong academic standards and excellence in the teaching profession. We want to provide our kids with the tools they need to represent a meaningful, moral society by empowering them. We look into each child's potential, develop their skills, and prepare them to persevere in achieving their objectives in the service of the country and humanity. To help our students reach their full potential, we are devoted to offering them a wide range of options.

The Soaring Falcon represents an important phase in our development because it lets our imagination go free and gives life to our dreams. It encourages the use of a wide range of creative abilities, including writing, editing, and newsletter design.

I extend my congratulations to the whole editorial staff for their perseverance and commitment, which led to the release of the first issue of the Monthly Newsletter this academic year.

“HAPPY READING”.

## ATAL

ATL lab at school is to foster curiosity, creativity, and imagination in young minds; and inculcate skills such as design mindset, computational thinking, adaptive learning, physical computing etc. ATL is a workspace where young minds can give shape to their ideas through hands-on do-it-yourself mode, and learn innovation skills. The lab is equipped with a variety of tools and equipment, such as 3D printers, robots, electronics kits, and software. These tools allow children to experiment and learn in a hands-on way. ATL lab has trained facilitators who can help children learn the skills they need to succeed in today's world.

## TEKIE

We are introducing an immersive & interactive curricular Coding Computer Science program with a great blend of digital and book components. The Tekie programme includes a storytelling format textbook, an animated coding series, and a digital platform

## EVENTS

### BACK TO SCHOOL

Soundarya campus was delighted to welcome all the students after many days of silent hallways and empty classrooms on 24th May 2023. The extensive preparation and planning put into making school reentry safe and welcoming classrooms were a testament to the care and commitment of all Soundarya staff. It was really quite wonderful to see shining eyes peeking, as students arrived ready for the new school year. The year started with new discoveries, friendships and learning opportunities through different ice-breaking activities under the nurturing and caring of our teachers.

### *Love you Mummy*

Mummy Mummy I love you  
 You must love me too, too, too...  
 For me and Papa, you are the best,  
 because you work and never rest.  
 Mummy mummy, no matter  
 What you do and what you are;  
 You will be my superstar

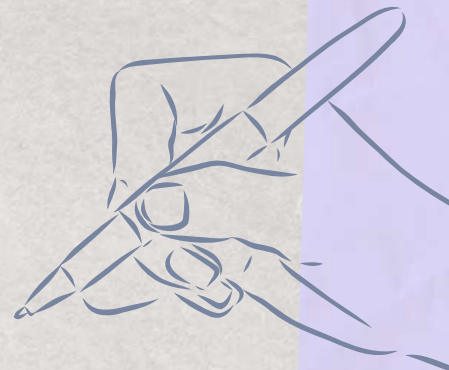

You will be my superstar.  
 Mummy mummy I love you  
 You must love me too, too, too...

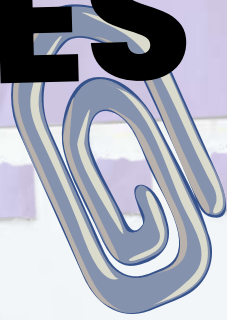

Mummy Mummy I am sorry if I've done wrong,  
 I'll promise not repeat any long.  
 Mummy mummy I wrote this song  
 To make sure you are never alone.

### *The Rose Flower*

The rose is a flower  
Which makes our life bloom,  
The heart melts  
When flower smells. Let  
The rose be our heart  
Forever we live

The rain is a bit pain  
For the people who gain  
Together we make the wonder world  
With our deep soul.

The world of thunder

### *The Night of the Moon*

With the light of the Sun  
The river felt like a pain in the year  
For the boy with his boat  
Put his oversized coat  
The beauty in the sea  
Felt like the gold I see  
And again the boy saw the gold  
Which he thought was too old

## TEACHER

Teacher, Teacher, Teacher  
 One who makes our future  
 Like strong stone  
 You are my bone.  
 I can't face  
 The race  
 of education without you  
 Teacher can also  
 Give light  
 In night  
 Too...  
 Every day  
 You teach way  
 To be proud of us

Teacher, Teacher, Teacher  
 one who create our nature  
 one who gives fun  
 More than the big sun  
 she does have pain  
 to stand for the whole day  
 like an umbrella to  
 stop  
 the rain  
 she gives us top  
 education  
 who creates our motivation.

## BOOK REVIEW

### NOVEMBER 9 - Colleen Hoover

As soon as I opened the book I instantly fell in love with it. This book was one of the best books I've ever read. When I started the book I could not put it down. I read the entire book in just three days. Colleen has such an astonishing way with words. The different perspectives make the book ten times better. Despite having that in mind, each one of her books still blows me away every time and gives me chills; her creativity and skills are incomprehensible and November 9 just proved this once again. The roller coaster of emotions I felt throughout this book is indescribable. Only those who read it will understand and I 100% recommend you read it. I'm not even exaggerating, everything was beautifully thought out and placed perfectly. It gets you thinking about life and its imperfections, but I loved the way she portrays hope and forgiveness throughout all the obstacles the characters faced. I'm not saying much about the book as I want to keep this review completely spoiler free, because I think that's the best way to approach this book.

## Bend the End

There were 2 kids Jack and Julie who were playing in the garden. When they were digging there, they felt something hard. There was curiosity in both of them, They checked what was there. Jack slowly took out the thing. Both were surprised after seeing that. There was a small box in which there was a sum to solve. Both were confused by seeing it. They asked for help and their mother helped them. And they opened the box. Jack and Julie were shocked Jack said "It's a simple book." But their mother said, " It's not just a book, it can change your mindset with one moral."

So, Read a book, Dream a book'
