Importance of Discipline in students' life

One of the most crucial personality traits in everyone's life is discipline. It alludes to a set of guidelines that must be followed.

It is a strategy for being sincere, diligent, goal-driven, and organized. A ship without radar is like life without discipline. Discipline is the quality that helps us resist the impulse to engage in destructive habits and keeps us focused on all the good things in life.

Students with discipline always have the time to finish all works by the deadlines. They have a clear focus and plan their time effectively. Not every great leader is born. To become effective leaders, the majority of them adhere to very rigid schedules and practice discipline in their daily lives.

Disciplined students develop the kind of mindset that is essential for success. They are more physically and intellectually focused. More adept at coordinating their body and mind with their thoughts and objectives. According to a survey, 92% of people are only able to fulfil their life goals because they are disciplined.

Great discipline entails enormous responsibility. Students cannot succeed only by creating timetables and schedules. It is also important to follow the schedule's instructions and perform the tasks listed on a regular basis. Depression and anxiety are major problems in contemporary life. A little self-control can help you live a happier, less stressful life and overcome obstacles.

Academic Coordinator- Preparatory Stage

IMPORTANCE OF PARENT'S PRESENCE.

Presence is the most precious gift you can give to your students or children. But it's easier said than done.

Children were restless, lacked social awareness and faced learning gaps after the pandemic. They were closed, not willing to interact with anyone. They were not interested in the classes and few were disturbing others. The needs of students were different compared to previous years. Classroom dynamics varied because their needs were different. However, there was one common factor that I sensed. They all wanted to be heard, accepted and yearned for connection.

Meeting the children where they are, requires heaps of calmness, patience and acceptance. We in SCS made sure that all students are taught to communicate better by taking care in the class. The presence and patience of teachers and supporting staff made the students bloom without any fear.

The presence of parents with children is one of the most important and valuable gifts given to children. Your time, your heart and your full attention are all precious gifts, and they are gifts that empower them to live lives of abundance. The simple but meaningful gifts of you are all ingredients of love. Children want their parents to make plans with them which they can look forward to. Children also expect some private time for themselves and want their parents to respect it.

Parents and teachers contribute to developing focus, concentration and self-control in their children. With a supportive parent and teacher, a child never regrets taking risks and this prepares a self-directed child.

Finally, parents and the school play the main roles to improve a child's critical thinking, empathy, perspective, making connections and communicating. At SCS we make sure that all pedagogies and strategies mold and direct a child into holistic development.

DADVENTURES (PREPARATORY STAGE)

-PARENT ENGAGEMENT PROGRAM

“A father doesn't tell you that he loves you; he shows you”

Grade 3 students of Soundarya Central School celebrated the event 'Dadventures' representing the selfless love of their fathers on 8th July 2023. Rejoicing this precious bond, the students warmly welcomed their dads with a flower craft made by them.

The students welcomed all the dignitaries, teachers & parents followed by highlighting points on the importance of the Father's Day celebration. The event was graced by ravishing performances like dance, music and melodious flute. Dads thronged the event enthusiastically with their kids in special games. 'Cooking without fire' was enjoyable as it was not only yummy but nutritious. 'Pyramid cup' was all about balancing the cup with a blown balloon. 'Catch the ball' really enlivened fathers and children. The last game 'The ball of rings', balancing the ball by tapping within the loop ring as it is pulled by the kid, was electrifying. It was a blithesome ambience.

BOOK AS A COMPANION!!!

One soul that abides in two bodies, goodwill that never makes us feel lonely, is a companion. We believe to confide our feelings only with a true-hearted soul. At times, certain things cannot be held by a man, which a paper can. A paper is never less than a man's patience. A book is a friend that contains pages as a shelter for our feelings and emotions. In fact, the book never comments or opposes, but always welcomes new ideas and aspects. Anne Frank, who was a well-known diarist and author, believed that "Paper has more patience than people". Along with it, books never keep us bored; it entertains readers consisting of several genres of comic, romance, mystery, morality, etc. Rather than having several friends who comment on us back, having a book with beautiful thoughts and ideas gives us a moral message, makes us enthusiastic, and helps us explore things.

All in all, the goodwill that always stays with us, gives us neighbourliness.

A book for a living is always peace-giving.

POEM-STAGE

All the world's a stage

Once said a genius

A miracle in which one

Escapes the appalling world

And erodes a mask of lies

An opportunity in which one

Basks in the glory of applause

An enchanting spell which

Breaks the bounds of science

A place where one expresses

Every vein or passion

Let it be glee or melancholic

Oh! What a wonder of this high society

So astounding that we question if it is really all just the enchantment of theatre.....

My Favourite Art- Realistic Art

What is realistic art?

Realism as an art movement was led by Gustave Courbet in France. It spread across Europe and was influential for the rest of the century and beyond, but as it became adopted into the mainstream of painting it became less common and useful as a term to define artistic style. Realism in art is also known as naturalism or veristic.

Why do I love this art?

Doing this art isn't a small task which consumes patience. This is even a way to express ourselves into an infinite number of artistic styles.

When I understand how to faithfully render what is in front of me in a way that expresses the reality of those objects, I can begin to bend and shift the realities into something more abstract.

I really love realistic art.

I am mighty, I am strong
What's the matter of the pity of wrong?
Nothing to be different from the people,

NATURE, THE BEST TEACHER

Have we learned to be humble?
 Or do we always let our productive thoughts mumble?
 It's time to make our tasks planned, for it to resemble,
 For the good of humanity, qualities superior do assemble.

Never too late, for things that are good, to happen,
 Let all the senses be smart always and open,
 To welcome the good, reject the worst, may the good skills sharpen,
 Haste not, learn from the nature, how to be humble, let our values strengthen.

IS WINNING SPIRIT IMPORTANT FOR THE LIFE ?

We always encourage our students to excel in all that they do whether its academics or cocurricular activities. It means we like our students to be a winner.

Winning means success, performing better than others, overcoming your limitations, achieving your dreams.

Everyone cannot be the winner; winner is ultimately excellent in the field. Participation is finding your own capability and try for success.

Few people say winning and losing does not matter in life. Are we participating in any competition / games without having a wish of winning it. No, we all have a spirit of winning it. If we do not have winning spirit, no one like to compete with us. Whatever the result maybe we may win or lose but keeping winning spirit in us moving ahead is very important. Winning spirit is like a source of energy for our life. "Winning and losing does not matters in life" this is applicable for those who have the spirit of winning, if they loss also perseverance towards their goal is very important.

" A true Winning Spirit separates a Striver from a Thriver. It is a spirit of perseverance, excellence and passionate determination"

This Is How Yoga Changing Me

I started doing yoga during my vacations-since then there has been no looking back

It has been my companion in moments when I am excited, exhausted, sleepy or overworked. The asanas help in toning the muscles, increase endurance and improve balance. Focus breathing helps calm the nervous system reduce anxiety and promote a sense of inner peace. Yoga is not just about the body, it also nurtures the mind by integrating mindfulness in meditation, yoga helps in releasing mental clutter and enhancing your ability to stay focused and take better decisions. It also helps in regulating emotions, reduce feelings of depression and promote a more positive outlook on life. Yoga encourages self care, self discovery and self empowerment leading to a more fulfilling and purposeful life . 20-30 minutes of Yoga per day can change our life in the long run by promoting a balance between physical, mental and spiritual health. Lets make a pledge to put our well being first and practice yoga everyday
